

Job Description

Job Title: Heavy Duty Equipment Mechanic - Surrey B.C.

We are looking for a HD Equipment Mechanic who possesses the expertise to service various types of specialized industrial and municipal equipment. This position is perfect for a highly motivated mechanic that is interested in pursuing a career managing a service department.

Our Surrey (*Port Kells*) location has been in operation for 15 years and we are expanding by opening a shop to service our customers. The successful candidate will operate as a mechanic, but be placed on a trajectory to eventually be our Service Manager as the department grows around them.

Responsibilities:

- Running diagnostic tests on heavy trucks, and industrial, and municipal equipment for proper performance, and inspecting equipment to detect faults and malfunctions.
- Analyzing diagnostic faults or malfunctions using computerized and other testing equipment to determine the extent of repair(s) required.
- Adjust equipment and repair or replace defective parts, components, or systems, using hand and power tools.
- Test repaired equipment for proper performance and to ensure that work meets manufacturers' specifications.
- Clean, lubricate, and perform other routine maintenance work on all equipment, and attachments /components.
- Service attachments and working tools on heavy trucks, and industrial, and municipal equipment.
- Perform repair work on heavy trucks and industrial, and municipal equipment.
- Attach components and make adjustments on new equipment.
- Ensure the cleanliness of their work area.
- (on occasion) Cross Training with our Lift Division to maintain, inspect, and service customers' automotive lifts/hoists, wheel servicing equipment, and other garage equipment, including installations and equipment deliveries/training. This would include mobile work.

Requirements & Skills:

- Management characteristics as the plan is for this person to be a Service Manager in a few years.
- Strong organizational and communication skills.

- High school diploma or GED.
- Certification, and proven work experience as a diesel or heavy equipment mechanic.
- Familiarity with computer testing technologies /IT and diagnostic skills.
- Extensive knowledge of diesel engines and industrial equipment.
- Valid driver's license and clean driving record, with the ability to drive pulling a trailer.
- Class 3 license preferred for additional proficiency.
- Prior certification or experience in forklift operation.
- Prior experience in loading, offloading, and load securement.
- Ability to work after-hours and travel to various customer sites as required.
- Strong interpersonal and organizational skills.
- Effective written and verbal communication skills.
- Some travel including overnight, could be necessary, but only occasionally.

Related Physical, & Safety Requirements:

- Ability to lift and carry heavy equipment components, parts, and tools weighing up to 75 lbs. Push /pull up to 1500 lbs.
- Comfortable working in confined spaces and climbing heavy equipment for inspection and repairs.
- Working at heights with Fall Protection on heavy equipment.
- Strong critical thinking skills for efficient troubleshooting.
- Tolerance for occasional exposure to environmental elements during work.
- Electronic Logging Device (ELD) use is required.
- Commitment to safety protocols, related training, and PPE usage.
