## Job Description: Heavy Duty Equipment Mechanic - Surrey B.C.

We are looking for a HD Equipment Mechanic who possesses the expertise to service various types of specialized industrial and municipal equipment. This position is perfect for a highly motivated mechanic that is interested in pursuing a career managing a service department. The successful candidate will operate as a mechanic but be placed on a trajectory to eventually be our Service Manager as the department grows around them. Our Surrey *(Port Kells)* location has been in operation for 15 years and we are expanding by opening a shop to service our customers.

## Responsibilities

- Running diagnostic tests on heavy trucks, and industrial, and municipal equipment for proper performance, and inspecting equipment to detect faults and malfunctions.
- Analyzing diagnostic faults or malfunctions using computerized and other testing equipment to determine the extent of repair(s) required.
- Utilizing advanced knowledge of CAN Bus networks, Multiplex wiring systems, and electrical diagnosing to resolve complex issues.
- Adjusting equipment and repairing or replacing defective parts, components, or systems, using hand and power tools.
- Testing repaired equipment for proper performance and to ensure that work meets manufacturers' specifications.
- Cleaning, lubricating, and performing other routine maintenance work on all equipment, and attachments/components.
- Servicing attachments and working tools on heavy trucks, and industrial, and municipal equipment.
- Attaching components and making adjustments on new equipment.
- Participating in required factory training and providing assistance to other divisions at the Surrey location.
- Maintaining a clean work area and occasionally cross-training with our Lift Division to service automotive lifts/hoists and other garage equipment.
- Performing mobile service work and traveling to customer sites as required.

## Requirements & Skills

- Management characteristics as the plan is for this person to be a Service Manager in a few years.
- Strong organizational, interpersonal, and communication skills.
- Trade certification and proven work experience as a diesel or heavy-duty equipment mechanic, with Heavy Duty dealer experience preferred.
- Experience with mobile trucks and a strong background in diesel engines and industrial equipment.
- Familiarity with computer testing technologies, IT, and diagnostic skills.

- Valid Class 5 driver's license and clean driving record, with the ability to drive pulling a trailer.
- Class 3 license preferred for additional proficiency.
- Prior certification or experience in forklift operation, loading, offloading, and load securement.
- Ability to work after-hours and travel (including occasional overnight stays) as necessary.

## Related Physical & Safety Requirements

- Ability to lift and carry heavy equipment components, parts, and tools weighing up to 75 lbs.
- Ability to push/pull up to 1500 lbs.
- Comfortable working in confined spaces and climbing heavy equipment for inspection and repairs.
- Working at heights with Fall Protection on heavy equipment.
- Strong critical thinking skills for efficient troubleshooting.
- Tolerance for occasional exposure to environmental elements during work.
- Electronic Logging Device (ELD) use is required.
- Commitment to safety protocols, related training, and PPE usage.

## About Us
